

# Water & Landforms

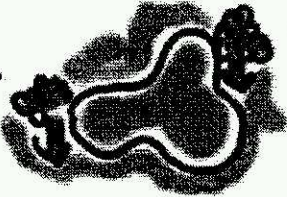

## river

A large, flowing body of water that empties into the sea.

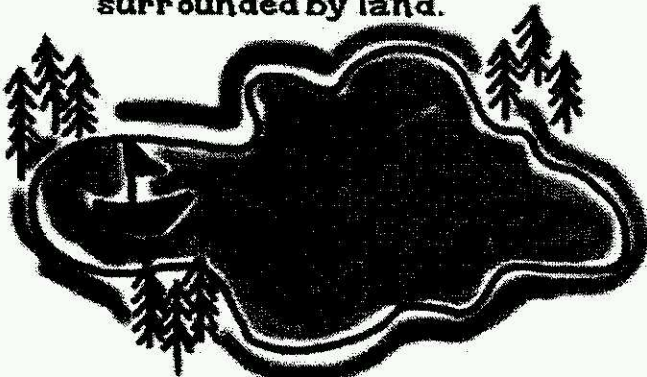

## pond

A small body of water surrounded by land.

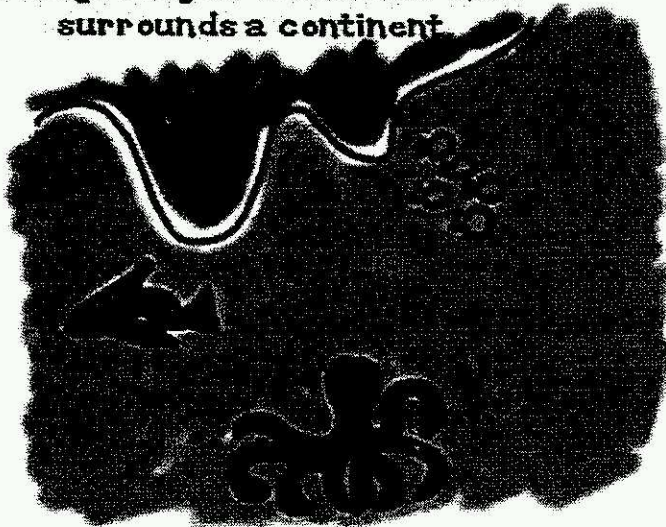

## lake

A large body of water surrounded by land.

## ocean

A large body of salt water that surrounds a continent.

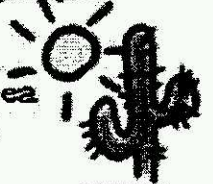

## mountain

Land that is raised above the surrounding area.

## desert

A hot, very dry, treeless area that is usually filled with sand.

## hill

A landform that is raised above the surrounding area, but is smaller than a mountain.

## plain

A large, flat area of land in the low lands with mostly no trees and minor changes in elevation.

## valley

The low areas between two elevations.

## coast

The boundary between the land and the sea.
